

10 YEAR LIMITED WARRANTY

Warranty against any manufacturing defects, breakages or excessive wear during normal use. This warranty is limited to the free replacement of defective or broken components, including freight costs to the relative distributor or end customer. This warranty is only valid for manual straight sliding door installations where the Helaform products are used in accordance to the recommended capacity limitations and Helaform assembly instructions. The system must use exclusively Helaform components. The warranty does not cover fatigue damages caused by external vibrations, fixing errors or compatibility issues caused by negligent installation. Note before installing that due to product manufacturing there may occur dimensional variations in special products' geometry, such as curve track length, radius of curvature and angle. Final angles and mounting locations must be checked by the client before mounting the track system. For more details on our terms and conditions, visit our website www.helaform.com

Tolerance

Our aluminium profiles are manufactured according to EN 755-9 and steel profiles according to EN 10162 tolerance. Other products are developed in accordance to tolerance EN 22768-v.
